Landscape Transformation on a Budget

Join us for a FREE workshop on transforming landscapes in a cost-effective manner. For many individuals, removing turf and replacing it with a watershed-wise landscape is overwhelming and cost prohibitive. This workshop will discuss potential expenses, prioritizing choices, determining how to minimize costs, and learning when to invest in a professional and when to get creative.

Our knowledgeable instructors will guide you through climate-friendly and sustainable gardening practices, while answering all your questions!

Please arrive 10 minutes early to get signed in and seated for the class.
